

SUN AND MOON CRAFT

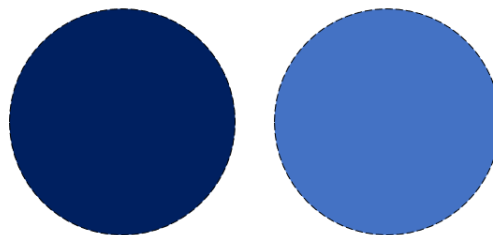

THINGS YOU'LL NEED:

- Sun & Moon Craft Pattern PDF
- Crayons: dark blue, light blue, yellow, orange, and white
- Elmer's school glue or glue stick
- Scissors

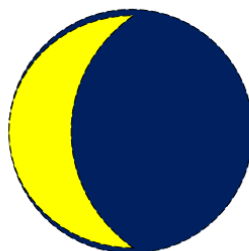

STEP #1:

Cut the large circle base on the second page of the Sun & Moon Craft pattern. Color one side of the large circle base dark blue, then color the bottom side of the large circle base light blue.

STEP #2:

Color the moon shape from the first page of the Sun & Moon Craft pattern yellow, then cut out the moon, and glue it to the dark blue large circle base.

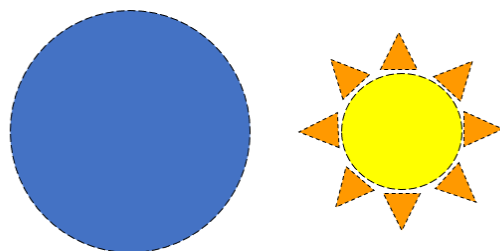

STEP #3:

Paint stars on the dark blue side of the large circle base next to the moon. Use a white crayon to dot white stars, dot as many stars as you see in the night sky!

STEP #4:

Turn over to the light blue side of the large circle base. Color the small circle yellow, and the triangles orange from Sun & Moon Craft pattern page, and then cut them out.

STEP #5:

Glue the small yellow circle to the light blue side of the large circle base, then glue the triangle shapes to the edge of the small yellow circle to create the sun!
