

artifacts from these collections have been placed into archival quality folders and boxes, inventoried, relabeled, and stored in IVDM Room 114.

CATALOGING NOTE

The archival materials in this collection have been processed according to the order in which they were found. They have been given Archival Accession Numbers, the first two letters relating to the collection (Archives Newspapers =A.N.) the number to be in numeric order as archives are processed (ex: A.N.1, A.N.2).

Organization

This archival series is organized numerically by the given accession number of the artifact. Any time multiple folders are used, they are marked with the number of folders required. Ex: 1/3. Photographs, photographic negatives, field notes, etc. are organized within each accession number.
